LEADERSHIP ACADEMY 2023

Alaska REALTORS® Leadership Academy will be commencing its second class in January 2023. The academy engages participants in a year-long professional development program through five in-person sessions held throughout the state. Participants combine individual study and group sessions to develop a final commencement project. The projects are geared toward the enhancement of personal, professional, and association goals.

Training sessions include identifying leadership skills, team-building exercises, goal setting, personal profile analysis, network building, and communication skills. Applications will be available in October 2022, and interviews scheduled in December 2022.
